E - ELECTRONICS	7.9.7. BRAKE PRESSURE SENSORS: ADDING THE NEW REFERENCE FROM 2016
F - TYRES	1. INTRODUCTION: NEW MICHELIN CONTACT

- Reminder: User Manuals are parts of technical regulation.

## 2. New starter heatshield OPTIONAL

A new starter heatshield is available under the reference 82 01 703 876. This new heatshield is bigger and its aim is to better protect the starter from the catalyzer's high temperature. Fitting points remain unchanged. It is allowed to place self-adhesive thermal protection on in order to increase insulation.

Both references (old one 77 11 166 876 and new one 8201 703 876 are allowed) are allowed.
